

B-Net[®] 91 07 authorization reader – secured PC and printer access

Product advantages

- Clear identification of the person
- Protection against unauthorized access - Only authorized persons can access PC, application and printer
- Can be used in a variety of ways, e.g. as a coding station for ID media or as a writing unit in biometrics

Made in Germany

developed and produced
in Germany

Your company's own PCs and printers can be protected from unauthorized access and thus from tampering with the B-Net 91 07 authorization reader. It also facilitates the logging of activities and processes.

In Kaba CardLink systems, you can apply or update authorizations on badges. The reader can also be used to code ID media and as a writing unit with biometric template recording.

The Legic reader is connected to the PC or printer via its USB interface and integrated into the respective software. Access is possible for as long as the badge is lying on the reader. The PC is locked again as soon as the employee removes the badge.

Features

- **User guidance:** Simple and straightforward use; the employee only has to place his or her badge on the reader for the authorization to be checked.
- **Interfaces/Integration:** The reader is connected to the PC or printer via its USB interface and integrated in the existing application. Software drivers are included in the scope of supply.
- **Reading method:** As a standard feature, the reader is equipped with the RFID system Legic advant/prime.

Technical features

Power supply

- Voltage supply via USB 5 V DC
Power consumption max. 120 mA

Communication

- USB version 2.0 with connecting cable
- USB plug type A
- USB driver for Windows 2000, XP, Vista and Windows 7
- Communication driver for integration in any applications

Environment

- Ambient temperature:
+5°C up to +40°C
- Protection class IP40

Colour

- anthracite

Dimensions

- Width 54 mm
- Height 13 mm
- Depth 85 mm

Detailed dimensional drawings are available on our home page for downloading.

Certification according to DIN EN ISO 9001
